Global Health Security in the Pacific Century

Gregg M. Nakano, M.A.L.D.

*EdD Candidate
College of Education
University of Hawaii at Manoa
Honolulu, Hawaii*

Expanding Ebola outbreak. US-China trade wars. Accelerating glacial ice melt. Sixth Mass Extinction Event. Overpopulation. Violent religious fundamentalism. Growing wealth inequality. Climate change-driven migration. MAGA. Antibiotic resistance. One Health. Rising national debt. Terrorist insurgencies. Homelessness in Hawaii. American Infrastructure Report Grade: D+. Insolvency of Social Security. How did we get here? What are the climate change impacts on national security when examined through the lens of global health security? And why must the military industrial complex evolve into human security network in the 21st century?

Wednesday, September 11, 2019 at 12:00 noon
John A. Burns School of Medicine, Kaka'ako Campus
Medical Education Building Auditorium (Room 315)
